### SUMMARY

A motivated and dedicated Python Developer with hands-on experience in Flask, Django, and web development technologies. Eager to contribute my skills in Python, REST API development, and full-stack development to a dynamic development team. Seeking an opportunity to grow as a Python Developer.

### TECHNICAL SKILLS

- Python
- Flask
- Django
- SQL
- Event-Driven Programming
- Numpy
- Pandas
- Git
- Github
- ORM
- API Development/Postman
- Docker
- Deployment
- HTML/CSS/Javascript
- Debugging

### PROFESSIONAL EXPERIENCE

#### Defronix Cyber Security Private Ltd

Jun 2023 - Jul 2023

- Developed cybersecurity tools using Python to strengthen security protocols and automation.
- Developed and maintained WordPress websites, ensuring optimal performance and security.
- Implemented robust security measures to protect web applications

#### Flazetech IT Solutions

Sep 2023 - Dec 2024

- Collaborated with cross-functional teams to implement effective digital strategies.
- Worked as a Full Stack Developer, contributing to various website development projects
- Collaborated with different Client's to deliver Websites and Web application

### PROJECTS

#### Full Stack E-commerce Web Application [LINK](#)

- Developed a scalable e-commerce platform using Django, integrating RESTful APIs for backend and PostgreSQL for data management.
- Implemented user authentication, product catalog management, and secure checkout process with a responsive frontend using HTML, CSS, and JavaScript.
- Deployed the platform on a cloud service ensuring scalability, reliability, and efficient performance.

#### Codify: Flask-based E-Learning Platform with Admin Management and Data Visualization [LINK](#)

- Developed Codify using Flask, HTML, CSS, Bootstrap, SQLAlchemy, and Matplotlib to create a dynamic learning platform.
- Admins can manage courses, quizzes, and blogs with full CRUD functionality, along with data visualization using Matplotlib.
- Users can enroll in courses, take quizzes, and earn certificates upon completion, enhancing the learning experience.

### PROJECTS

#### Django-based DDOs Attack Detection System [LINK](#)

- Developed a Django-based DDoS Attack Detection System using Random Forest to effectively detect and prevent attacks.
- Integrated a real-time monitoring interface with HTML, CSS, and JavaScript, offering timely alerts for suspicious behavior.
- Ensures enhanced security and smoother user experience by analyzing network traffic and safeguarding online services.

### RELEVANT COURSEWORK

- Python By Hackerank
- Python Essentials By FyndAcademy
- Data Science by IBM
- Django Certification by GeeksforGeeks

### EDUCATION

**Lakshmi Narain College of Technology University, Bhopal**

**2022-2025**

Bachelors of Computer application

Specialised in Artificial Intelligence and Data Analytics

**CGPA: 7.2**

### SOFT SKILLS

- Problem-Solving
- Communication
- Teamwork
- Adaptability
- Time Management

### ADDITIONAL INFORMATION

- Presented my research paper titled "Detection of Phishing URLs Using Artificial Neural Network" at the International Conference on Recent Advances in Mathematics and Data Science (ICRAMDS).
- Actively contributed to 4 open source projects during Hacktoberfest, enhancing documentation, fixing critical bugs, and improving software stability to support community collaboration.
